33.

MODIFICATION OF THE 1966 PLAN OF DEVELOPMENT AND OPERATIONS AND BUDGET TO CHANGE SURFACE LOCATION OF PROPOSED WELL A-724 I, LONG BEACH UNIT, WILMINGTON OIL FIELD, LOS ANGELES COUNTY - W.O. 5200.301 AND W.O. 5200.317.

The City of Long Beach has submitted for State Lands Commission approval, pursuant to applicable statutes, a modification of the 1966 Plan of Development and Operations and Budget, Long Beach Unit, changing the surface location of proposed Well A-724 I and redesignating such well as Well A-712 I, as set forth in THUMS Approval Request 27-66.

The surface location of Well A-724 I was approved, as a part of the Third-Quarter Drilling Schedule, by the Commission at its meeting of July 12, 1966. As approved at this surface location, the well bore would intersect approximately nine well courses now proposed for proper field development from Island "A". Moving the surface location six well locations (36 feet south) to the A-712 I cellar location will remedy the above condition.

The approved bottom-hole location will remain unchanged, but the well will be drilled as Well A-712 I.

The Commission's staff have reviewed this proposed change, and find that it is desirable and that the new surface location will permit a more orderly development of the field.

IT IS RECOMMENDED THAT THE COMMISSION, PURSUANT TO THE PROVISIONS OF SECTION 5(g) OF CHAPTER 138, STATUTES OF 1964, 1ST E.S., APPROVE THE MODIFICATION OF THE 1966 PLAN OF DEVELOPMENT AND OPERATION AND BUDGET, LONG BEACH UNIT, TO CHANGE THE SURFACE LOCATION OF PROPOSED WELL A-724 I AND REDESIGNATE SUCH WELL AS WELL A-712 I, AS SET FORTH IN THUMS APPROVAL REQUEST 27-66.
